

Freedom Fest 2021

www.freedomfest2021.com

Be Free University is an African American owned and operated online financial institution which educates our students on how to become financially free by owning their own businesses.

On March 26, 2021, we are embarking on the full launch of our institution, and we are partnering with sponsors to help cover overhead costs during the launch and future expenses. This dynamic event will surely draw a large crowd with featured speakers such as Roland Martin, Daymond John, RC Blakes, Joe Dudley, JuJu, Ashley Ann, Derrick Harper, and Ash Cash.

Your decision to become a sponsor for **Be Free University Freedom Fest 2021** provides our students an opportunity to become entrepreneurs, investors, and the ability to generate passive income as they enhance their personal and business financial needs through our educational platform.
